DETAILED ACTION

Allowable Subject Matter

1. Claims 1-10 is allowed.

The following is an examiner's statement of reasons for allowance:

The cited prior art does not disclose nor suggest wherein constructed in the housing as a region of the housing with thinned wall thickness is a separating diaphragm that is connected on one of its sides to the diaphragm-type pressure sensor and on the other side of which the fluid with the pressure that is to be measured can be applied.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US patents 5606117, 2003/0146447, 5883779 all teach devices pertinent to the pressure sensor structure as claimed.
